177 NOW IN STATE

NOT ALL INSURANCE COMPANIES WILL WITHDRAW.

NEW LAW FAR REACHING

Prima Facie Evidence of Combination to Consult Rating Given by Another Company or Association.

A dispatch from Jefferson City says that the fire insurance companies may withdraw from this state, owing to the new law, which they call too drastic. The following is the dispatch:

Threats on the part of fire insurance companies to withdraw from Missouri because of unsettled rate conditions has caused considerable comment. Attorney General John M. Barker, whose statement some days ago that he would institute criminal prosecution immediately if rates were not reduced, is out of the city. When he returns tomorrow or next day it is expected he will take decisive steps in the matter.

The repeal of the Oliver rating law, enacted two years ago, has stirred up the trouble. The companies made a desperate fight to prevent the repeal of the Oliver law, under which they have been able to advance fire rates all over the state. They also made a desperate fight to induce the governor to veto the Orr bills carrying the repeal and again placing the fire companies under the provisions of the anti-trust laws, where they were before the enactment of the Oliver law.

Just what could be done in the event that the companies carry out their threats to leave Missouri is not apparent. Undoubtedly the repeal of the Oliver law and the attitude of the attorney general in his announced determination to bring about a reduction of rates has "stirred up" the companies, as resolutions adopted yesterday at the meeting of the Missouri committee of fire company managers in Chicago indicate. A suspension of business in Missouri even for a short time would bring about a vast amount of confusion.

State Superintendent of Insurance C. G. Revelle is out of the city today, but at the department it was stated that nothing is known here officially of the action taken in Chicago. There is no emergency clause on the bill replacing the companies under the provisions of the anti-trust laws, consequently it will not be effective until June. The feature of this bill objectionable to the fire insurance companies is in the following section

"In any proceeding against or prosecution of any insurance company under this article, it shall be prima facie evidence that such company is a member of a pool, trust, agreement, confederation or understanding to control, affect or fix the price or premium to be paid for insuring property against loss or damage by fire, lightning or storm, if it be shown that such company or any agent or representative thereof, in writing insurance has used any insurance rate, or made use of, or consulted any insurance rate, prepared, published, kept or furnished by any person, asosciation of persons or bureau employed by, representing or acting on behalf of any other insurance company or association in and about the making and publishing of insurance rates for use in any portion of this state."

This is far more drastic than were the provisions of the anti-trust law applicable to fire companies before they went under the provisions of the Oliver law, and it is believed has caused the threatened withdrawal of the companies from the state.

The total amount of fire risks in Missouri at this time is $171,000,000.

There are thirty-four foreign insurance companies, 114 American companies, 5 Missouri companies, 18 mutual companies and 6 Missouri town mutual companies writing insurance in the state at this time.

ON "SUNDAY REST."

On Tuesday night, April 8, the people of Union township will have a rare oportunity of hearing a man of nation-wide reputation, as Dr. Edward Thompson, secretary of the world congress, will be the speaker. Dr. Thompson is a lawyer, is eloquent and highly instructive. There will be special music at the Pickering meeting.

ONLY ONE-FOURTH IMPROVED.

Writer Estimated That Amount of Improved Land Area in the United States.

In the current issue of Farm and Fireside appears an article showing how explosives can be used in clearing land. The author says that with intelligent handling there is practically no danger, and excellent results are secured after a little practice. Following is an extract:

"Only about 25 per cent of the entire land area of the United States is improved farm land, yet we already hear the wail of new settlers and would-be land owners, who find improved farms too expensive for their limited capital, and who claim that unimproved farm land is more than scarce. Statistics, however, show that in Michigan and Wisconsin nearly 50 per cent of the land is still in the unimproved state and can be purchased at a very cheap rate. This unimproved land consists mostly of cut-over timber lands, lands containing a second growth of timber, and rocky lands too rough to be profitably worked.

"Only those who have tried to clear such land by the use of explosives know how efficient the method is and what a great time and labor saver it is compared to the primitive man, horse and machinery method. The explosive method is of especial interest to new settlers and those of limited capital because it requires no large initial outlay of money, and every cent invested can be immediately used for the purpose of clearing up the farm. Besides this, if properly handled explosives are as safe as the machinery method. Explosives will do as good work in clearing land as the most expensive machinery and generally at less total cost."

HAD $25,000 FIRE

DISASTROUS BLAZE AT WORTH THURSDAY MORNING.

BANK OF WORTH BURNED

Hardware and Furniture Stores and Building Owned by Paul Cook Also Destroyed—Bank is Open.

Fire was discovered at Worth, Mo., several miles east of Parnell, Thursday morning at 2.10 o'clock, that resulted in a $25,000 loss.

It is supposed that the fire was started by lightning. When discovered the whole building that is occupied by the Bank of Worth and the hardware and furniture stores, owned by J. A. Corley, the proprietor of the furniture store, was on fire and it seemed to have started from one point and the entire buildings were in a blaze. Not a thing could be done to save them, and the only thing saved were two cane rocking chairs.

The bank had all of its money and valuable papers safely locked in the fireproof safe, and its loss is on the building and furnishings alone, amounting to $5,000, which is covered by insurance.

J. A. Corley, the proprietor of the furniture store, estimates his loss at $15,000, and he carried $7,000 insurance.

A small business building next to the furniture store owned by Paul J. Cook of Maryville, formerly proprietor of Cook's bazaar of this city, also burned, but the loss is covered by insurance.

The bank opened up for business early Thursday morning in one of the business stores of the town, and Walter Head of St. Joseph, who is interested in the bank, arrived Thursday noon with a contractor from St. Joseph and will have a new bank building ready for business within sixty days.

About 1 o'clock Thursday morning Mr. Pettijohn, the lumberman of Worth, awoke and thought he could smell burning pine. He called the telephone central and asked fi she could see fire at the lumber yard, but as nothing could be seen, and as all others asked in regard to probable fire could see nothing of it, he went back to bed and thought nothing more of it. Mr. Pettijohn could not sleep, however, as he could not rid himself from the belief that a fire was burning some place, and at 2 o'clock he got up and dressed and went out to investigate for himself, and found that the bank and furniture buildings were in flames. If it had not been for his discovery it is believed that the entire business section would have burned.

The newspaper plant of D. C. Simons of the Worth Tribune was not damaged by the fire.

He is returning home from a trip to the Field-Lippman stores and at every point he finds the sentiment and activities of business men mounting to the highest point of optimism.

"SEEK YE FIRST THE KINGDOM."

Rev. Zentz Preached to Good Congregation Wednesday Night—Two More Services.

Considering the threatening weather there was a good attendance at the First M. E. church Wednesday night, and those who came were in earnest about the things of the kingdom. The service was one of the most impressive and uplifting of the meeting. Four more accepted Christ at the service and others seem deeply interested. It is confidently expected that the service tonight will result in other additions to the kingdom.

There are only two more services of the week, and whatever good is to be received from them must be realized at once. Rev. Zentz preached a very persuasive sermon Wednesday night on the text "Seek ye first the kingdom of God and His righteousness."

Services tonight as usual at 7:30. Tomorrow night the sermon will be especially appropriate for the young people. You are very cordially invited. GILBERT S. COX.

A PURSE TO THEIR PASTOR.

The Men of St. Mary's Church Gave Rev. Fr. Anselm $150 for Pocket Money of Foreign Trip.

Quite a company of the men of St. Mary's Catholic church gathered at the home of their pastor, Rev. Fr. Anselm Wednesday evening to bid him good-bye and wish him a safe and happy journed to his native home in Lucerne, Switzerland. They brought with them a purse containing $150 and presented it to him to be used as pocket money on his trip. The purse was presented to Fr. Anselm by Aaron Felix in behalf of the men of the church. Fr. Anselm was taken completely by surprise and responded with deep feeling.

Fr. Anselm will leave on his trip next Monday. He will leave his assistant, Rev. Fr. Willebrode, in charge of the work at St. Mary's, and he will be assisted by some priest from the monastery at Conception, who will be named later. In responding to the thoughtful gift of his parishioners Wednesday night, Fr. Anselm said he would not near think of leaving them if it was not for the critical condition of his mother at her home in Lucerne. She is now 84 years old and has been in feeble health all winter. It is her constant wish to see him, and for that reason he is hastening on his visit sooner than he had anticipated. The best wishes of all Maryville people will follow him on his journey.

SPENT $287 FOR CLEAN-UP.

That Amount Expended for Cleaner Streets and Alleys in Maryville.

According to the figures of Street Commissioner M. I. Woods $287 was expended on cleaning up the paved streets and alleys in Maryville. About 1,500 loads of dirt were hauled away from these streets and it took twelve teams and fifteen men five days, and three teams and four men for a day and a half to do the work of cleaning up. One more day is yet to be spent on cleaning the alleys, and when this is done the work will be finished.

Commissioner Woods has notified property owners in the outlying districts of the city to clean up their properties.

The city has spent $341.85 on their street work for the past month. In this amount is included the money spent for cleaning up.

TURNER SUMMONED IN LAND FRAUD CASE

Said to Have Aided in Keeping Evidence From Court.

Chicago, April 3.—Federal Judge Landis, hearing the case of Albert C. Frost and four others charged with Alaskan land frauds, ordered subpoenas issued for George Turner, formerly United States senator from Washington, and for Patrick M. Mullen. The latter has testified already, but Turner is wanted as a witness because of Frost having testified to being guided to some extent by the advice of Turner as to the method of acquiring Alaskan coal lands.

Judge Landis' action followed the reading of a letter by the government in which it appeared Mr. Turner had been instrumental in preventing certain evidence from coming before the federal court in Seattle, which in 1911 was investigating the alleged land frauds.

The letter, which was written to Mr. Frost by H. S. Osler, member of the firm of McCarthy, Osler, Hoskin & Harcourt, attorneys of Toronto, was dated Jan. 9, 1911, and read:

"Dear Frost: I have just had a conversation with Osborne, who has seen Boland and as the matter is one in which a letter ought not to be produced, he suggests that it is better that I should write you, so the letter might be privileged. Boland is informed from Turner's office by cipher telegrams that the charges against yourself, Watson and Laberee may be filed by a grand jury and that he had better keep him on this side of the line if possible. We suppose here that having regard to Turner's former negotiations with you upon this subject on behalf of Laberee, he had probably communicated with you direct, and in case he has not done so there may be some foundation for the report."

According to the government, Mullen, while employed by the government to protect its interests, was actually interesting himself in behalf of Frost and concealing certain facts from the government. Mullen denied this charge when he was on the witness stand here.

PASS SCANDAL IN COLORADO

Judges and State Officials Solicit Favors of Roads.

Washington, April 3.—The investigation by Commissioner Harlan of the interstate commerce commission into the practice of Colorado railroads of giving free transportation has brought sensational results. Criminal indictments of large shippers and the offending carriers have been returned.

Mr. Harlan said in a preliminary report that "in one month over a single railroad 7,000 trips were made on passes. Not only shippers who controlled routing of traffic in any appreciable quantity were favored at all times, but even public officials demanded these favors of the carriers.

"Even judges have not hesitated to pursue this course. Personal requests by judges upon carriers for passes are disclosed by the record, accompanied by expressions of their sense of obligation for such favors granted to them both before and after they went on the bench.

"All classes joined in the orgy of petty graft, at once sacrificing rightful revenues of the carriers, in the combination against all small shippers and demoralizing all public officials, including the legislature and the bench."

The following spring poultrygrams are taken from the current issue of Farm and Fireside:

"Stoneware drinking vessels are the most sanitary and serviceable.

"For full egg-baskets try equal parts of wheat, oats and corn, scattered in litter.

"Save all the table-scraps, parings, etc., boil, and thicken with wheat bran, also feed warm at night.

"Ice water is not conductive to egg-laying. Give the hens their water at about blood heat in cold weather.

"Hens prefer dark nests. It will take less time to darken the hen house nests than to hunt for stolen nests.

ENGINEER DISREGARDS ORDERS

Fails to Take Siding to Let Westbound Train Pass and Collision Occurs Near Sharp Curve at Wakeley, Wyo.—List of Victims.

Sheridan, Wyo., April 3.—Two are dead and ten seriously injured as the result of a head-on collision between two Burlington passenger trains on a sharp curve five miles east of Sheridan.

Burlington officials assign the disaster to the failure of Engineer M. E. Miller of eastbound passenger No. 42 to observe orders to take the siding at Wakeley, where the accident occurred.

The dead: W. C. Taylor, route agent for the Adams Express company, Sheridan; M. Mobbery, Tacoma.

The injured: Gus Holden, engineer on the westbound train, Sheridan, leg and hand crushed; J. S. Rutherford, Elgin, Okla., back sprained; Fred Miley, express messenger, Billings, internally injured; Steve Buppus, Monarch, Wyo., legs crushed; S. D. Cox, Hampton, Neb., legs crushed, right wrist cut and head gashed; J. L. Taylor, Owensboro, Ky., left knee injured and back sprained; O. F. Robinson, Denver, left foot mashed and back wrenched; J. C. Pace, Walla Walla, Wash., right foot mashed and left ankle sprained; San Rosentreter, New York, legs crushed, right hand and wrist crushed; W. C. Harris, Spokane, Wash., internally injured.

Practically all the injured were passengers in the smoking car on the eastbound train, which was telescoped.

MRS. PANKHURST ON TRIAL

Appears as Her Own Attorney and Pleads Not Guilty.

London, April 3.—Mrs. Emmeline Pankhurst, from the prisoners' enclosure at the Old Bailey court house pleaded "not guilty" to the charge of having "counseled others to place feloniously and maliciously, certain gunpowder and other explosive substances with intent thereby to damage" Lloyd George's country house at Walton Heath.

The suffragette leader, frail looking and pale, found the court room crowded with women wearing the suffragette colors. She talked composedly to Sir Charles Montague Lush, the judge, and announced, "I will defend myself." A table was assigned to her for her papers.

Archibald Bodkin, counsel for the treasury, had not proceeded far with his opening of the case when Mrs. Pankhurst interposed with the objection:

"I do not mind counsel introducing reports of my speeches made by journalists, but I object to police reports. They are grossly inaccurate, very ignorant and ungrammatical, and convey an absolutely wrong impression of what I said."

The judge soothed her by promising that she would have an opportunity later to correct them.

Mr. Bodkin said it was not suggested that Mrs. Pankhurst was present at the time the bomb was placed in Lloyd George's house, but the prosecution charges that she was an accessory before the fact.

Wife of Walter Hobart Given Divorce

San Francisco, April 3.—Walter Hobart, millionaire polo player and club man, was divorced from his wife, formerly Miss Hannah Williams, on charges, preferred by her of cruelty, intemperance, abusive language and infidelity. He did not defend the suit.

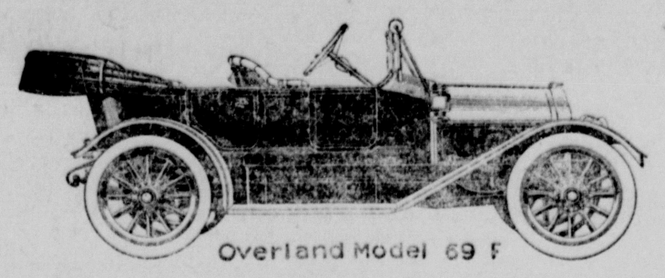
YOU CAN AFFORD TO OWN AN
OVERLAND



At Stockholm in the Swedish Reliability trials, Feb. 23rd to 26, the official result of which was announced at a dinner of the Royal Swedish Automobile Club, an Overland was awarded second place in the class II division.

There were 68 entrants in the tour which was routed from Stockholm to Goteburg and back to Stockholm, a distance of 700 miles. It was open to all pleasure cars and entrants were divided into two classes on a price basis.

The gold plate of the club was awarded to the cars making perfect road scores, and four Overlands were so honored.

Attention was called to the time made by the Overland on Kilometer Hill. This was better than any other of the 68 cars that competed. It was also one of the only two cars to have a perfect score in the class.

April Fool Party at Parnell.

Miss Matie Evans, daughter of Mr. and Mrs. Charles C. Evans, entertained a party of her friends Tuesday evening with an April fool party. When the guests arrived they were met by Mrs. Evans, who informed them that her daughter had been called away, but that she would entertain them as best she could. Shortly after their arrival Miss Matie appeared and told them she was only April fooling them. The evening was spent in playing various games and jokes and tagging one another with April fool tags. Mrs. Evans, who was disguised as Madam Loof Lirpa, the great fortune teller, told some interesting things to the guests while blindfolded. As they appeared before her, in order to test whether she was securely blindfolded or not, they were made to give signs of various kinds to find out whether she could see. To each of these she told that they had succeeded in making fools of themselves, while to five others, who held a magic card, she told wonderful tales of fortunes that were in store for them. An interesting luncheon was served. As it all appeared appetizing, it was only by testing that the guests were able to tell which was intended for them to eat or which for their eyesight only. The guests included Misses Zoe Dinsmore, Greta Barber, Elma Martin, Lottie Bird, Grace DeFreeece, Rosetta and Esther Klaas, Marguerite Gaynor, Inez Hall, Quete Morgan, Lena Foland, Minnie Tanner, Kate Waske Messrs. Egyptian Justice.

In ancient Egypt all court business was carried on in writing, in order that the decision might not be influenced by oratory or personal appeal. The laws lay before the judges upon a table, and the accuser declared in writing how he had been injured, whereupon the defendant stated in writing what he had to say. Then came a rejoinder from each party to the case, after which the judges deliberated among themselves until they had hit upon the proper legal penalty for the party who had in the meantime been adjudged guilty. This point being reached the president of the judges touched with an image of Thmei, the "Goddess of Truth," the manuscript of the guilty pleader and the case was over.

FEAR MISSOURIAN WAS SLAIN

Farmer Disappears Near Moberly and Dynamite Fuse Is Found.

Moberly, Mo., April 3.—Harry Johnson, a farmer, twenty-three years old, disappeared near the Twin churches, near Moberly, Sunday night and efforts to find him have failed. Parts of his overcoat were found near the Twin churches, together with a dynamite fuse. Johnson was tracked across a wooded field and a pasture, after which all trace was lost.

Sunday night he visited his sweetheart. He was seen after he left her home, but when his riderless horse came home searching parties were organized by his father. Johnson's parents say he had no money with him.

St. Louis Elects Republican Mayor.

St. Louis, April 3.—With four precincts missing, Henry W. Kiel (Rep.) is leading his nearest opponent, Dr. John H. Simon (Dem.), in the mayoralty race by 1,930 votes. The board of election commissioners, composed mostly of Democrats, concede Kiel's election by a majority of 2,000. Frank H. Gerhart, the Progressive candidate, received but a small vote. With the possible exception of collector and registrar, the balance of the Democratic ticket was chosen. Both the house of delegates and the council will be controlled by the Democrats. In many of the wards the Socialists more than doubled the Progressive vote.

Suffragists Hold Big Meeting.

St. Louis, April 3.—Mrs. Catherine Waugh McCullach of Evanston told the Mississippi valley suffrage conference, which began a three days' session here, that women who march in suffrage parades should not trust too implicitly in the chivalry of American men. It is well, she said, for girl marchers to have a chaperon.

F. A. Young, Missouri Pioneer, Dead

Lexington, Mo., April 3.—Fred A Young, seventy-nine years old, a pioneer citizen of this county, died at his home near here. He is survived by three children, Thomas C. Young of Farmington, Mo.; Miss Lelia Young with whom he lived, and Mrs. Oceal Bowman of Kansas City.

One Reason Why So Many Marriages Are Unhappy.

In an article entitled "A Girl and Her Future," in the April Woman's Home Companion, the author says in part:

"One does not wonder so much that there are many unhappy marriages, it is amazing, rather, that there are not more considering how little most of us know about marriage and how little we prepare for it. Yet it is certain that if in our schools and colleges—if especially in our homes—girls were encouraged and trained to think and talk frankly of the duties of wifehood and motherhood that are likely to come to them; if it were admitted to be a mark of unintelligence not to prepare for these duties, the rate of happy marriages would be likely to increase enormously.

"If I were asked for practical suggestions I would say, begin at the beginning. Learn how to do every kind of practical work that is or ever will be required in the average home. Learn every part of a household's management as an engineer learns to know every part of his machine. You may thing it a trifle to learn to dust carefully and well, to know how to cook a tasty meal, how to select meat and how to buy judiciously, to prepare tempting invalid dishes, to nurse a little child who is ill, or to entertain one who is convalescent, to make clothes, to write proper notes, to judge between good and bad in furniture, pictures and house furnishings. These things are all allied with the success or failure of your future life."

You can't do better in the city than at C. Weaver's, 15 West Third street.

Was Held Up.

Glenn Brummitt, while going home about 11:30 last night, was held up by an unknown party at the old lumber yard on West Third street. Officers were called at once, but no trace could be found of the party. Nothing was secured from Brummitt. The officers are inclined to believe that the hold-up is somewhat of a joke.

All persons having any of my chicken coops I would greatly appreciate their returning same at their earliest convenience. J. A. SPEIRS,

Favors Rural Credit Organizations.

In this week's issue of Missouri Ruralist, J. R. Little of Wright country, in speaking of the need of cheaper money, says: If we could get money as the farmers do in France or Germany we could have a working capital. We could farm then as well as we know. No man on a farm where he can turn his capital over only once a year, or even less frequently, can pay 8 per cent. He will "bump the wall" sure. Of course we ought to co-operate in selling and buying and maybe when we get a few more baths over the face and eyes we will.

TWO KENTUCKY TOWNS FLOODED

Brookport and Paducah Suffer From Up-River Overflow.

CREST HAS NOT YET PASSED.

Brookport Citizens Reported to Be Clinging to Houses as They Float in Murky, Swirling Waters—Missouri Guardsmen Adrift on Broken Levee.

Cairo, Ill., April 3.—This morning Colonel S. O. Tripp was informed from Springfield that Brookport, Ky., near Paducah, was under water and that the lives of many residents were in danger. They were reported to be clinging to housetops waiting to be rescued. A supply of food and men will be sent there on the boats and barges in charge of Major Buckner, United States army, directly after their arrival here. These boats are expected here any minute. Lieutenant S. B. Buckner, Jr., United States army, on his arrival here telegraphed the army officers at Paducah, Ky., to visit Brookport, Ky., and also Shawneetown, Ill., by power boat as quickly as possible and notify him here by wire as to the needs of those put to flight by floods. Supplies will be sent from here today.

The highest stage of the Ohio river ever recorded here was reached last night, when the river gauge showed 54.4 feet. This exceeds the former high water mark by .3 of a foot. The river is again rising and the town is in a state of expectancy never before experienced here.

Missourians Floating Down River.

Reports of flood damage in other cities were received here nearly every hour, but it was impossible to verify these reports from Cairo. One of the most thrilling stories to reach here was brought by Captain S. N. Martin and Captain H. A. Jamison of the Sixth regiment, Missouri national guards. They had been rescued in a launch from a section of the levee which had broken away at Bird Point, Mo., just below here. They declared thirty-six of their men were on a section of the levee 200 yards long and ten feet wide, which was floating down the Mississippi.

Commander McMunn of the Illinois naval reserves at once secured a steam launch and set out to rescue the Missouri soldiers. There is a swift current in the Mississippi and fears were expressed for the safety of the soldiers. The Sixth Missouri regiment was on duty at Bird Point, which has been threatened by flood waters for several days.

MORGAN'S BODY IN EN ROUTE

Eternal City Gives Great Financier Last Farewell.

Rome, April 3.—The Eternal City gave its last farewell to J. P. Morgan, whose body was placed aboard a train for Havre. It will be transported to the United States by a steamer, probably the France, sailing for New York on Saturday. The German emperor sent a message of condolence to Mrs. Morgan.

The funeral procession to the depot was impressive in its simplicity. The hearse was followed by carriages, in which rode Mr. and Mrs. Herbert L. Satterlee; the American ambassador, Thomas J. O'Brien; the staff of the embassy, the attending physicians, Dr. Nelson of the American church and a few friends. Platoons of municipal guards acted as escorts. The people in the streets raised their hats as the cortege passed.

The coffin was placed on a special car, covered with black velvet draperies with silver fringe. The floral tributes from members of the family, the German emperor, the municipality of Rome and the American ambassador were placed around the coffin.

Shortly before the departure of the train the French consul arrived, bringing a beautiful silver wreath from Aix le Baines. It bore the French tricolor and an appropriate inscription.

PRESIDENT'S TARIFF VIEWS

House Committee Holds Meeting to Consider Them.

SUGAR ISSUE BECOMES ACUTE

President Giving Careful Attention to Sugar Tariff Opposition—Tells Callers He Has Not Made Up Mind About Income Tax Rates.

Washington, April 3.—President Wilson's attitude toward features of the new tariff bill was the subject of a conference by the Democratic members of the house ways and means committee. Chairman Underwood laid before the committee the results of his talk with the president, during which the chief executive urged several changes in the rates proposed by the ways and means committee.

The sugar tariff issue has become more acute as the result of reports that the president and Mr. Underwood practically had agreed upon removal of all duties from sugar, with a provision that such change would not take effect immediately, but that sugar growers would have an opportunity to readjust themselves to the changed conditions.

That the president is giving careful attention to the views of those who oppose free sugar was indicated when he sent for Colonel Robert Ewing, Democratic national committeeman from Louisiana. Mr. Ewing declined to discuss his visit, but it is expected the president endeavored to suggest a compromise arrangement so that when the tariff bill reached the senate its sugar provision would not be opposed there.

The president told several of his callers that he had not made up his mind about the income tax rates. He said it would be impossible to determine this until there had been an agreement upon the tariff rates, as not until then would it be known just how much revenue would be required.

The tariff was discussed last night at the White House between the president and Senators Simmons, Stone and Hoke Smith of the finance committee.

LOVETT ISSUES STATEMENT

Union Pacific Chairman Tells of Visit to Attorney General.

New York, April 3.—Robert S. Lovett, chairman of the Union Pacific Railway company, issued a brief statement concerning his visit to Attorney General McReynolds at Washington in connection with the Union Pacific Southern Pacific dissolution proceedings.

"I went over this matter with the attorney general in its various aspects," said Mr. Lovett, "putting him in full possession of all the facts and detail.

"It is perhaps too much to say that any definite plan was submitted. The chief point at issue is the disposal of the $126,000,000 Southern Pacific stock owned by the Union Pacific. Whether or not an extension of time will be asked to dispose of these holdings depends largely upon restrictions now prevailing. I hope to hear from the attorney general within a week."

Judge Lovett said the attitude of the present administration differs in no particular from the preceding one so far as it affects Union Pacific-Southern Pacific matters. The attorney general according to Judge Lovett, wants the matter worked out in a fair way. The department of justice is insistent that control of the Southern Pacific by the Union Pacific be broken up.

Harrisburg, Pa., April 3.—Pennsylvania joined the ranks of the states that have ratified the proposed amendment to the federal constitution providing for the direct election of United States senators, making the thirty-fifth to fall in line. Goodwater, Mo.—"Ever since I was a little girl," says Mrs. Riley Laramore, "I was a great sufferer from dyspepsia.

I suffered misery after eating, and had terrible heartburn.

I thought I had to suffer this way as long as I lived, but when I began to take Thedford's Black-Draught, in small doses, every night, the heartburn was all gone in a few days, and I could eat without distress.

I took two small packages in all, and although that was some time ago, the dyspepsia has not returned.

I speak a good word for Thedford's Black-Draught whenever I have the opportunity."

177 NOW IN STATE

NOT ALL INSURANCE COMPANIES WILL WITHDRAW.

NEW LAW FAR REACHING

Prima Facie Evidence of Combination to Consult Rating Given by Another Company or Association.

A dispatch from Jefferson City says that the fire insurance companies may withdraw from this state, owing to the new law, which they call too drastic. The following is the dispatch:

Threats on the part of fire insurance companies to withdraw from Missouri because of unsettled rate conditions has caused considerable comment. Attorney General John M. Barker, whose statement some days ago that he would institute criminal prosecution immediately if rates were not reduced, is out of the city. When he returns tomorrow or next day it is expected he will take decisive steps in the matter.

The repeal of the Oliver rating law, enacted two years ago, has stirred up the trouble. The companies made a desperate fight to prevent the repeal of the Oliver law, under which they have been able to advance fire rates all over the state. They also made a desperate fight to induce the governor to veto the Orr bills carrying the repeal and again placing the fire companies under the provisions of the anti-trust laws, where they were before the enactment of the Oliver law.

Just what could be done in the event that the companies carry out their threats to leave Missouri is not apparent. Undoubtedly the repeal of the Oliver law and the attitude of the attorney general in his announced determination to bring about a reduction of rates has "stirred up" the companies, as resolutions adopted yesterday at the meeting of the Missouri committee of fire company managers in Chicago indicate. A suspension of business in Missouri even for a short time would bring about a vast amount of confusion.

State Superintendent of Insurance C. G. Revelle is out of the city today, but at the department it was stated that nothing is known here officially of the action taken in Chicago. There is no emergency clause on the bill replacing the companies under the provisions of the anti-trust laws, consequently it will not be effective until June. The feature of this bill objectionable to the fire insurance companies is in the following section

"In any proceeding against or prosecution of any insurance company under this article, it shall be prima facie evidence that such company is a member of a pool, trust, agreement, confederation or understanding to control, affect or fix the price or premium to be paid for insuring property against loss or damage by fire, lightning or storm, if it be shown that such company or any agent or representative thereof, in writing insurance has used any insurance rate, or made use of, or consulted any insurance rate, prepared, published, kept or furnished by any person, asosciation of persons or bureau employed by, representing or acting on behalf of any other insurance company or association in and about the making and publishing of insurance rates for use in any portion of this state."

This is far more drastic than were the provisions of the anti-trust law applicable to fire companies before they went under the provisions of the Oliver law, and it is believed has caused the threatened withdrawal of the companies from the state.

The total amount of fire risks in Missouri at this time is $171,000,000.

There are thirty-four foreign insurance companies, 114 American companies, 5 Missouri companies, 18 mutual companies and 6 Missouri town mutual companies writing insurance in the state at this time.

ONLY ONE-FOURTH IMPROVED.

Writer Estimated That Amount of Improved Land Area in the United States.

In the current issue of Farm and Fireside appears an article showing how explosives can be used in clearing land. The author says that with intelligent handling there is practically no danger, and excellent results are secured after a little practice. Following is an extract:

"Only about 25 per cent of the entire land area of the United States is improved farm land, yet we already hear the wail of new settlers and would-be land owners, who find improved farms too expensive for their limited capital, and who claim that unimproved farm land is more than scarce. Statistics, however, show that in Michigan and Wisconsin nearly 50 per cent of the land is still in the unimproved state and can be purchased at a very cheap rate. This unimproved land consists mostly of cut-over timber lands, lands containing a second growth of timber, and rocky lands too rough to be profitably worked.

"Only those who have tried to clear such land by the use of explosives know how efficient the method is and what a great time and labor saver it is compared to the primitive man, horse and machinery method. The explosive method is of especial interest to new settlers and those of limited capital because it requires no large initial outlay of money, and every cent invested can be immediately used for the purpose of clearing up the farm. Besides this, if properly handled explosives are as safe as the machinery method. Explosives will do as good work in clearing land as the most expensive machinery and generally at less total cost."

HAD $25,000 FIRE

DISASTROUS BLAZE AT WORTH THURSDAY MORNING.

BANK OF WORTH BURNED

Hardware and Furniture Stores and Building Owned by Paul Cook Also Destroyed—Bank is Open.

Fire was discovered at Worth, Mo., several miles east of Parnell, Thursday morning at 2.10 o'clock, that resulted in a $25,000 loss.

It is supposed that the fire was started by lightning. When discovered the whole building that is occupied by the Bank of Worth and the hardware and furniture stores, owned by J. A. Corley, the proprietor of the furniture store, was on fire and it seemed to have started from one point and the entire buildings were in a blaze. Not a thing could be done to save them, and the only thing saved were two cane rocking chairs.

The bank had all of its money and valuable papers safely locked in the fireproof safe, and its loss is on the building and furnishings alone, amounting to $5,000, which is covered by insurance.

J. A. Corley, the proprietor of the furniture store, estimates his loss at $15,000, and he carried $7,000 insurance.

A small business building next to the furniture store owned by Paul J. Cook of Maryville, formerly proprietor of Cook's bazaar of this city, also burned, but the loss is covered by insurance.

The bank opened up for business early Thursday morning in one of the business stores of the town, and Walter Head of St. Joseph, who is interested in the bank, arrived Thursday noon with a contractor from St. Joseph and will have a new bank building ready for business within sixty days.

About 1 o'clock Thursday morning Mr. Pettijohn, the lumberman of Worth, awoke and thought he could smell burning pine. He called the telephone central and asked fi she could see fire at the lumber yard, but as nothing could be seen, and as all others asked in regard to probable fire could see nothing of it, he went back to bed and thought nothing more of it. Mr. Pettijohn could not sleep, however, as he could not rid himself from the belief that a fire was burning some place, and at 2 o'clock he got up and dressed and went out to investigate for himself, and found that the bank and furniture buildings were in flames. If it had not been for his discovery it is believed that the entire business section would have burned.

The newspaper plant of D. C. Simons of the Worth Tribune was not damaged by the fire.

"SEEK YE FIRST THE KINGDOM."

Rev. Zentz Preached to Good Congregation Wednesday Night—Two More Services.

Considering the threatening weather there was a good attendance at the First M. E. church Wednesday night, and those who came were in earnest about the things of the kingdom. The service was one of the most impressive and uplifting of the meeting. Four more accepted Christ at the service and others seem deeply interested. It is confidently expected that the service tonight will result in other additions to the kingdom.

There are only two more services of the week, and whatever good is to be received from them must be realized at once. Rev. Zentz preached a very persuasive sermon Wednesday night on the text "Seek ye first the kingdom of God and His righteousness."

Services tonight as usual at 7:30. Tomorrow night the sermon will be especially appropriate for the young people. You are very cordially invited. GILBERT S. COX.

A PURSE TO THEIR PASTOR.

The Men of St. Mary's Church Gave Rev. Fr. Anselm $150 for Pocket Money of Foreign Trip.

Quite a company of the men of St. Mary's Catholic church gathered at the home of their pastor, Rev. Fr. Anselm Wednesday evening to bid him good-bye and wish him a safe and happy journed to his native home in Lucerne, Switzerland. They brought with them a purse containing $150 and presented it to him to be used as pocket money on his trip. The purse was presented to Fr. Anselm by Aaron Felix in behalf of the men of the church. Fr. Anselm was taken completely by surprise and responded with deep feeling.

Fr. Anselm will leave on his trip next Monday. He will leave his assistant, Rev. Fr. Willebrode, in charge of the work at St. Mary's, and he will be assisted by some priest from the monastery at Conception, who will be named later. In responding to the thoughtful gift of his parishioners Wednesday night, Fr. Anselm said he would not near think of leaving them if it was not for the critical condition of his mother at her home in Lucerne. She is now 84 years old and has been in feeble health all winter. It is her constant wish to see him, and for that reason he is hastening on his visit sooner than he had anticipated. The best wishes of all Maryville people will follow him on his journey.

SPENT $287 FOR CLEAN-UP.

That Amount Expended for Cleaner Streets and Alleys in Maryville.

According to the figures of Street Commissioner M. I. Woods $287 was expended on cleaning up the paved streets and alleys in Maryville. About 1,500 loads of dirt were hauled away from these streets and it took twelve teams and fifteen men five days, and three teams and four men for a day and a half to do the work of cleaning up. One more day is yet to be spent on cleaning the alleys, and when this is done the work will be finished.

Commissioner Woods has notified property owners in the outlying districts of the city to clean up their properties.

The city has spent $341.85 on their street work for the past month. In this amount is included the money spent for cleaning up.

TURNER SUMMONED IN LAND FRAUD CASE

Said to Have Aided in Keeping Evidence From Court.

Chicago, April 3.—Federal Judge Landis, hearing the case of Albert C. Frost and four others charged with Alaskan land frauds, ordered subpoenas issued for George Turner, formerly United States senator from Washington, and for Patrick M. Mullen. The latter has testified already, but Turner is wanted as a witness because of Frost having testified to being guided to some extent by the advice of Turner as to the method of acquiring Alaskan coal lands.

Judge Landis' action followed the reading of a letter by the government in which it appeared Mr. Turner had been instrumental in preventing certain evidence from coming before the federal court in Seattle, which in 1911 was investigating the alleged land frauds.

The letter, which was written to Mr. Frost by H. S. Osler, member of the firm of McCarthy, Osler, Hoskin & Harcourt, attorneys of Toronto, was dated Jan. 9, 1911, and read:

"Dear Frost: I have just had a conversation with Osborne, who has seen Boland and as the matter is one in which a letter ought not to be produced, he suggests that it is better that I should write you, so the letter might be privileged. Boland is informed from Turner's office by cipher telegrams that the charges against yourself, Watson and Laberee may be filed by a grand jury and that he had better keep him on this side of the line if possible. We suppose here that having regard to Turner's former negotiations with you upon this subject on behalf of Laberee, he had probably communicated with you direct, and in case he has not done so there may be some foundation for the report."

According to the government, Mullen, while employed by the government to protect its interests, was actually interesting himself in behalf of Frost and concealing certain facts from the government. Mullen denied this charge when he was on the witness stand here.

PASS SCANDAL IN COLORADO

Judges and State Officials Solicit Favors of Roads.

Washington, April 3.—The investigation by Commissioner Harlan of the interstate commerce commission into the practice of Colorado railroads of giving free transportation has brought sensational results. Criminal indictments of large shippers and the offending carriers have been returned.

Mr. Harlan said in a preliminary report that "in one month over a single railroad 7,000 trips were made on passes. Not only shippers who controlled routing of traffic in any appreciable quantity were favored at all times, but even public officials demanded these favors of the carriers.

"Even judges have not hesitated to pursue this course. Personal requests by judges upon carriers for passes are disclosed by the record, accompanied by expressions of their sense of obligation for such favors granted to them both before and after they went on the bench.

"All classes joined in the orgy of petty graft, at once sacrificing rightful revenues of the carriers, in the combination against all small shippers and demoralizing all public officials, including the legislature and the bench."

Spring Poultrygrams.

The following spring poultrygrams are taken from the current issue of Farm and Fireside:

"Stoneware drinking vessels are the most sanitary and servicable.

"For full egg-baskets try equal parts of wheat, oats and corn, scattered in litter.

"Save all the table-scraps, parings, etc., boil, and thicken with wheat bran, and feed warm at night.

"Ice water is not conductive to egg-laying. Give the hens their water at about blood heat in cold weather.

"Hens prefer dark nests. It will take less time to darken the hen house nests than to hunt for stolen nests.

"Three drops of carbolic acid to a gallon of water will sterilize the water and prevent throat troubles in poultry."

Sheridan, Wyo., April 3.—Two are dead and ten seriously injured as the result of a head-on collision between two Burlington passenger trains on a sharp curve five miles east of Sheridan.

Burlington officials assign the disaster to the failure of Engineer M. E. Miller of eastbound passenger No. 42 to observe orders to take the siding at Wakeley, where the accident occurred.

The dead: W. C. Taylor, route agent for the Adams Express company, Sheridan; M. Mobbery, Tacoma.

MRS. PANKHURST ON TRIAL

Appears as Her Own Attorney and Pleads Not Guilty.

London, April 3.—Mrs. Emmeline Pankhurst, from the prisoners' enclosure at the Old Bailey court house pleaded "not guilty" to the charge of having "counseled others to place feloniously and maliciously, certain gunpowder and other explosive substances with intent thereby to damage" Lloyd George's country house at Walton Heath.

The suffragette leader, frail looking and pale, found the court room crowded with women wearing the suffragette colors. She talked composedly to Sir Charles Montague Lush, the judge, and announced, "I will defend myself." A table was assigned to her for her papers.

Archibald Bodkin, counsel for the treasury, had not proceeded far with his opening of the case when Mrs. Pankhurst interposed with the objection:

"I do not mind counsel introducing reports of my speeches made by journalists, but I object to police reports. They are grossly inaccurate, very ignorant and ungrammatical, and convey an absolutely wrong impression of what I said."

The judge soothed her by promising that she would have an opportunity later to correct them.

Mr. Bodkin said it was not suggested that Mrs. Pankhurst was present at the time the bomb was placed in Lloyd George's house, but the prosecution charges that she was an accessory before the fact.

April Fool Party at Parnell.

Miss Matie Evans, daughter of Mr. and Mrs. Charles C. Evans, entertained a party of her friends Tuesday evening with an April fool party. When the guests arrived they were met by Mrs. Evans, who informed them that her daughter had been called away, but that she would entertain them as best she could. Shortly after their arrival Miss Matie appeared and told them she was only April fooling them. The evening was spent in playing various games and jokes and tagging one another with April fool tags. Mrs. Evans, who was disguised as Madam Loof Lirpa, the great fortune teller, told some interesting things to the guests while blindfolded. As they appeared before her, in order to test whether she was securely blindfolded or not, they were made to give signs of various kinds to find out whether she could see. To each of these she told that they had succeeded in making fools of themselves, while to five others, who held a magic card, she told wonderful tales of fortunes that were in store for them. An interesting luncheon was served. As it all appeared appetizing, it was only by testing that the guests were able to tell which was intended for them to eat or which for their eyesight only. The guests included Misses Zoe Dinsmore, Greta Barber, Elma Martin, Lottie Bird, Grace DeFreeece, Rosetta and Esther Klaas, Marguerite Gaynor, Inez Hall, Quete Morgan, Lena Foland, Minnie Tanner, Kate Waske Messrs. Tom and Martin Farrell, Troy Bloomfield, Wyeth Miller, Noble Klaas, Charles Harmon, Viron Bird, Harry Simmons, Troy Milligan.

Mr. Cramer is well pleased with the reception he has been accorded by the farmers of Nodaway county.

Egyptian Justice.

In ancient Egypt all court business was carried on in writing, in order that the decision might not be influenced by oratory or personal appeal. The laws lay before the judges upon a table, and the accuser declared in writing how he had been injured, whereupon the defendant stated in writing what he had to say. Then came a rejoinder from each party to the case, after which the judges deliberated among themselves until they had hit upon the proper legal penalty for the party who had in the meantime been adjudged guilty. This point being reached the president of the judges touched with an image of Thmei, the "Goddess of Truth," the manuscript of the guilty pleader and the case was over.

Farmer Disappears Near Moberly and Dynamite Fuse Is Found.

Moberly, Mo., April 3.—Harry Johnson, a farmer, twenty-three years old, disappeared near the Twin churches, near Moberly, Sunday night and efforts to find him have failed. Parts of his overcoat were found near the Twin churches, together with a dynamite fuse. Johnson was tracked across a wooded field and a pasture, after which all trace was lost.

Sunday night he visited his sweetheart. He was seen after he left her home, but when his riderless horse came home searching parties were organized by his father. Johnson's parents say he had no money with him.

St. Louis Elects Republican Mayor.

St. Louis, April 3.—With four precincts missing, Henry W. Kiel (Rep.) is leading his nearest opponent, Dr. John H. Simon (Dem.), in the mayoralty race by 1,930 votes. The board of election commissioners, composed mostly of Democrats, concede Kiel's election by a majority of 2,000. Frank H. Gerhart, the Progressive candidate, received but a small vote. With the possible exception of collector and registrar, the balance of the Democratic ticket was chosen. Both the house of delegates and the council will be controlled by the Democrats. In many of the wards the Socialists more than doubled the Progressive vote.

Suffragists Hold Big Meeting.

St. Louis, April 3.—Mrs. Catherine Waugh McCullach of Evanston told the Mississippi valley suffrage conference, which began a three days' session here, that women who march in suffrage parades should not trust too implicitly in the chivalry of American men. It is well, she said, for girl marchers to have a chaperon.

F. A. Young, Missouri Pioneer, Dead

Lexington, Mo., April 3.—Fred A. Young, seventy-nine years old, a pioneer citizen of this county, died at his home near here. He is survived by three children, Thomas C. Young of Farmington, Mo.; Miss Lelia Young with whom he lived, and Mrs. Occa Bowman of Kansas City.

One Reason Why So Many Marriages Are Unhappy.

In an article entitled "A Girl and Her Future," in the April Woman's Home Companion, the author says in part:

"One does not wonder so much that there are many unhappy marriages, it is amazing, rather, that there are not more considering how little most of us know about marriage and how little we prepare for it. Yet it is certain that if in our schools and colleges—if especially in our homes—girls were encouraged and trained to think and talk frankly of the duties of wifehood and motherhood that are likely to come to them; if it were admitted to be a mark of unintelligence not to prepare for these duties, the rate of happy marriages would be likely to increase enormously.

"If I were asked for practical suggestions I would say, begin at the beginning. Learn how to do every kind of practical work that is or ever will be required in the average home. Learn every part of a household's management as an engineer learns to know every part of his machine. You may thing it a trifle to learn to dust carefully and well, to know how to cook a tasty meal, how to select meat and how to buy judiciously, to prepare tempting invalid dishes, to nurse a little child who is ill, or to entertain one who is convalescent, to make clothes, to write proper notes, to judge between good and bad in furniture, pictures and house furnishings. These things are all allied with the success or failure of your future life."

You can't do better in the city than at C. Weaver's, 15 West Third street.

Was Held Up.

Glenn Brummitt, while going home about 11:30 last night, was held up by an unknown party at the old lumber yard on West Third street. Officers were called at once, but no trace could be found of the party. Nothing was secured from Brummitt. The officers are inclined to believe that the hold-up is somewhat of a joke.

All persons having any of my chicken coops I would greatly appreciate their returning same at their earliest convenience.

Favors Rural Credit Organizations.

In this week's issue of Missouri Ruralist, J. R. Little of Wright country, in speaking of the need of cheaper money, says: If we could get money as the farmers do in France or Germany we could have a working capital. We could farm then as well as we know. No man on a farm where he can turn his capital over only once a year, or even less frequently, can pay 8 per cent. He will "bump the wall" sure. Of course we ought to co-operate in selling and buying and maybe when we get a few more baits over the face and eyes we will.

TWO KENTUCKY TOWNS FLOODED

Brookport and Paducah Suffer From Up-River Overflow.

CREST HAS NOT YET PASSED.

Brookport Citizens Reported to Be Clinging to Houses as They Float in Murky, Swirling Waters—Missouri Guardsmen Adrift on Broken Levee.

Cairo, Ill., April 3.—This morning Colonel S. O. Tripp was informed from Springfield that Brookport, Ky., near Paducah, was under water and that the lives of many residents were in danger. They were reported to be clinging to housetops waiting to be rescued. A supply of food and men will be sent there on the boats and barges in charge of Major Buckner, United States army, directly after their arrival here. These boats are expected here any minute. Lieutenant S. B. Buckner, Jr., United States army, on his arrival here telegraphed the army officers at Paducah, Ky., to visit Brookport, Ky., and also Shawneetown, Ill., by power boat as quickly as possible and notify him here by wire as to the needs of those put to flight by floods. Supplies will be sent from here today.

The highest stage of the Ohio river ever recorded here was reached last night, when the river gauge showed 54.4 feet. This exceeds the former high water mark by .3 of a foot. The river is again rising and the town is in a state of expectancy never before experienced here.

Missourians Floating Down River.

Reports of flood damage in other cities were received here nearly every hour, but it was impossible to verify these reports from Cairo. One of the most thrilling stories to reach here was brought by Captain S. N. Martin and Captain H. A. Jamison of the Sixth regiment, Missouri national guards. They had been rescued in a launch from a section of the levee which had broken away at Bird Point, Mo., just below here. They declared thirty-six of their men were on a section of the levee 200 yards long and ten feet wide, which was floating down the Mississippi.

Commander McMunn of the Illinois naval reserves at once secured a steam launch and set out to rescue the Missouri soldiers. There is a swift current in the Mississippi and fears were expressed for the safety of the soldiers. The Sixth Missouri regiment was on duty at Bird Point, which has been threatened by flood waters for several days.

MORGAN'S BODY IN EN ROUTE

Eternal City Gives Great Financier Last Farewell.

Rome, April 3.—The Eternal City gave its last farewell to J. P. Morgan, whose body was placed aboard a train for Havre. It will be transported to the United States by a steamer, probably the France, sailing for New York on Saturday. The German emperor sent a message of condolence to Mrs. Morgan.

The funeral procession to the depot was impressive in its simplicity. The hearse was followed by carriages, in which rode Mr. and Mrs. Herbert L. Satterlee; the American ambassador, Thomas J. O'Brien; the staff of the embassy, the attending physicians, Dr. Nelson of the American church and a few friends. Platoons of municipal guards acted as escorts. The people in the streets raised their hats as the cortege passed.

The coffin was placed on a special car, covered with black velvet draperies with silver fringe. The floral tributes from members of the family, the German emperor, the municipality of Rome and the American ambassador were placed around the coffin.

Shortly before the departure of the train the French consul arrived, bringing a beautiful silver wreath from Aix le Baines. It bore the French tricolor and an appropriate inscription.

Texas Land Owner Sues for Damages.

Kansas City, April 3.—Ralph S. Langley, who owns thousands of acres of land in Texas along the Rio Grande river, brought suit for $500,000 damages in the circuit court against John H. Sharp of the City National bank of Omaha and Frank H. Gaines, an attorney of Omaha. He asserted in his petition to the court that they spread gossip about his business ability and integrity.

Montenegrins Take Five Forts.

Vienna, April 3.—The Montenegrin army besieging the fortress of Scutari captured five of the forts defending Tarabosch and the fall of two others is expected at any hour, according to a dispatch from Cettinje. The correspondent says Scutari is burning in several places.

Alienation Suit Is Filed.

PRESIDENT'S TARIFF VIEWS

House Committee Holds Meeting to Consider Them.

SUGAR ISSUE BECOMES ACUTE

President Giving Careful Attention to Sugar Tariff Opposition—Tells Callers He Has Not Made Up Mind About Income Tax Rates.

Washington, April 3.—President Wilson's attitude toward features of the new tariff bill was the subject of a conference by the Democratic members of the house ways and means committee. Chairman Underwood laid before the committee the results of his talk with the president, during which the chief executive urged several changes in the rates proposed by the ways and means committee.

The sugar tariff issue has become more acute as the result of reports that the president and Mr. Underwood practically had agreed upon removal of all duties from sugar, with a provision that such change would not take effect immediately, but that sugar growers would have an opportunity to readjust themselves to the changed conditions.

That the president is giving careful attention to the views of those who oppose free sugar was indicated when he sent for Colonel Robert Ewing, Democratic national committeeman from Louisiana. Mr. Ewing declined to discuss his visit, but it is expected the president endeavored to suggest a compromise arrangement so that when the tariff bill reached the senate its sugar provision would not be opposed there.

The president told several of his callers that he had not made up his mind about the income tax rates. He said it would be impossible to determine this until there had been an agreement upon the tariff rates, as not until then would it be known just how much revenue would be required.

The tariff was discussed last night at the White House between the president and Senators Simmons, Stone and Hoke Smith of the finance committee.

LOVETT ISSUES STATEMENT

Union Pacific Chairman Tells of Visit to Attorney General.

New York, April 3.—Robert S. Lovett, chairman of the Union Pacific Railway company, issued a brief statement concerning his visit to Attorney General McReynolds at Washington in connection with the Union Pacific Southern Pacific dissolution proceedings.

"I went over this matter with the attorney general in its various aspects," said Mr. Lovett, "putting him in full possession of all the facts and detail.

"It is perhaps too much to say that any definite plan was submitted. The chief point at issue is the disposal of the $126,000,000 Southern Pacific stock owned by the Union Pacific. Whether or not an extension of time will be asked to dispose of these holdings depends largely upon restrictions now prevailing. I hope to hear from the attorney general within a week."

Judge Lovett said the attitude of the present administration differs in no particular from the preceding one so far as it affects Union Pacific-Southern Pacific matters. The attorney general according to Judge Lovett, wants the matter worked out in a fair way. The department of justice is insistent that control of the Southern Pacific by the Union Pacific be broken up.

Pennsylvania for Direct Elections.

Harrisburg, Pa., April 3.—Pennsylvania joined the ranks of the states that have ratified the proposed amendment to the federal constitution providing for the direct election of United States senators, making the thirty-fifth to fall in line. Balkan Situation Again Acute.

MRS. LARAMORE TELLS TROUBLES

Lady in Goodwater Describes Her Distressing Experience and Tells How She Was Finally Relieved.

Goodwater, Mo.—"Ever since I was a little girl," says Mrs. Riley Laramore, "I was a great sufferer from dyspepsia.

I suffered misery after eating, and had terrible heartburn.

I thought I had to suffer this way as long as I lived, but when I began to take Thedford's Black-Draught, in small doses, every night, the heartburn was all gone in a few days, and I could eat without distress.

I took two small packages in all, and although that was some time ago, the dyspepsia has not returned.

I speak a good word for Thedford's Black-Draught whenever I have the opportunity."

If eating causes distress, we urge you to try Thedford's Black-Draught. It cleanses the system, helps the stomach to digest its food, regulates the bowels, and stimulates the liver.

It acts gently and is without bad after-effects. Try it. Price 25c.
